LUMINARIAS DE INTERIOR/LUMINARIAS DE EXTERIOR

Estimados clientes, socios comerciales y amigos de Eglo.

EGLO se fundó en 1969 con la actitud pionera de desarrollar y hacer cosas que “nunca se hicieron antes”. En EGLO hemos encontrado un lugar en la historia de la luz que nos ha permitido crecer continuamente durante 50 años. “El diseño contemporáneo, junto con la alta funcionalidad a precios asequibles”, fue y sigue siendo nuestro lema. Mega tendencias como “Seguridad”, “Salud” o “Personalización” son factores de control en nuestra sociedad los cuales también caracterizan las demandas de diseño y tecnología. Incluimos flujos de diseño en nuestra gama de productos que influirán en nuestro mundo de luminarias. Estas tendencias son “Autenticidad natural”, “Minimalismo moderno”, “Vida de Lagom” e “Industrial informal”.

Me complace especialmente este año presentarle nuestra innovadora y completa gama de productos para usted en este catálogo, ya que EGLO Leuchten GmbH celebra su 50 aniversario.

Disfrute navegando por nuestro nuevo y conmemorativo catálogo.

Mag. René Tiefenbacher
CEO EGLO Group

Dear customers, business partners and trusted EGLO friends,

EGLO was founded in 1969 with the pioneering attitude of developing and doing things that “were never done before”. We at EGLO have found a place in the history of light that has enabled us to grow continually for 50 years. “Contemporary design, coupled with high function at affordable prices” – that was, and remains, our motto. Mega trends such as “Safety”, “Health” or “Customisation” are controlling factors in our society. They also characterise demands of design and technology. We include design streams in our product range that will influence our world of luminaires. These trends are “Natural Authenticity”, “Modern Minimalism”, “Lagom Living” and “Casual Industrial”.

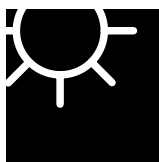

I am particularly happy this year to present our innovative and comprehensive product range to you in this catalogue, as EGLO Leuchten GmbH celebrates its 50 th anniversary.

Enjoy browsing our new main catalogue.

INDICE DE REPRODUCCIÓN CROMÁTICA

QUALITY CRITERION COLOUR RENDERING

INDICE DE REPRODUCCIÓN CROMÁTICA

El índice de reproducción de color Ra describe la calidad de reproducción del color de las lámparas. Cuanto más alto sea el valor de Ra menos cambiará la luz artificial el color de un objeto. El valor Ra máximo (por ejemplo el valor Ra del sol) es 100. Por lo tanto, las lámparas con un Ra por encima de 90 te harán lucir mejor tus espacios.

Las lámparas con un valor de Ra superior a 90 están marcadas con éste botón:

CRI
>90

QUALITY CRITERION COLOUR RENDERING

The colour rendering index Ra describes the colour rendering quality of lamps. The higher the Ra value, the less will the artificial light change the colour of an object. The maximum Ra value (e.g. the Ra value of the sun) is 100.

Therefore, lamps with an Ra above 90 will make you look better.

Lamps with an Ra value above 90 are marked with this button:
